

Biography for Robert R. Montgomery B.A. CRSP CHSC NCSO

Education Director

Robert is Senior Partner of **Mountain Industrial Safety Services Inc.** based in Calgary, Alberta. The firm has provided management consulting services to clients within a wide range of Industries for over twenty years and travels regularly throughout Canada and the United States.

Robert graduated from the University of Saskatchewan with a Bachelor's degree in History and Economics and excelled in the study of 'Organizational Behavior' within the College of Commerce. He has attained the Certified Health & Safety Consultant designation (CHSC) as determined by the Canadian Society of Safety Engineering, is a Canadian Registered Safety Professional (CRSP) as certified by the Board of Canadian Registered Safety Professionals and maintains a National Construction Safety Officer (NCSO) designation through the Alberta Construction Safety Association.

Robert served as a member of the Royal Canadian Mounted Police and maintains membership in the Calgary Veterans Association. He worked with highly trained professionals and learned the craft of effective investigations before being recruited to a role in Forensic Accounting & Loss Prevention with a Fortune 500 company. Together with a small cadre of professional investigators he developed investigational tools and educational programming that resulted in annual savings of \$6M.

In 1993 Robert started an Industrial supply and management consulting company offering a wide range of educational programming that included health and safety programming as part of an overall management plan. The concept was popular and today, MISS represents a range of organizations across the continent. In addition, he is a partner in **FarmSafe Inc.** serving Alberta Agriculture Operators and **SHEPP LLC.** based in Alabama serving Pipeline Maintenance Operators.

He has delivered most of the curriculum offered by the Alberta Construction Safety Association and is currently an adjunct Professor at the University of Fredericton where he facilitates Communication related material within the OSH stream of their EMBA program. He has served as Chair of the Public Relations Sub-Committee of the National Education Committee of the Canadian Society of Safety Engineering (CSSE) and most recently is proud to serve as the National Director of Education. He is married to Debbie and blessed to have two children - David and Lauren. He is currently researching Communication within the Canadian OHS sector and working to complete a text on the subject for use in the classroom. He is passionate about Effective Communication and accepts speaking engagements as time allows.
