

**R. GLENN BARNED, CHRP, CHSC, CRSP**

Glenn Barned is a Professional Occupational Health & Safety (OH&S) Consultant with RGB Enterprises. With over 25 years of experience in OH&S, Glenn has worked with both public and private sectors, achieving their OH&S goals. Glenn is the Past Chair and Treasurer of the Pacific Rim Chapter of the Canadian Society of Safety Engineering, as well as holding other volunteer positions in the fields of OH&S, Human Resources and Emergency Management.

Glenn has received recognition through his training development and delivery in all areas that he has worked. Course evaluations for Glenn's delivery of various training courses have confirmed his superior delivery with clarity, real life examples, humour, and his ability to involve the participants with an outgoing, interactive style. In addition, the B.C. Canadian Society of Safety Engineering has recognized Glenn with the 2004 Special Projects Award for the development and delivery of a unique management development course using OH&S as the training vehicle.

Glenn has been a professional trainer for most of his career. Specializing in training assessment, development and delivery is a unique combination of skills that sets Glenn apart from most experts in this area.

Glenn is a Certified Human Resource Professional (CHRP), a Certified Health & Safety Consultant (CHSC) and a Canadian Registered Safety Professional (CRSP).

The B.C. Canadian Society of Safety Engineering has recognized Glenn as the "2004 Safety Professional of the Year". The Canadian Red Cross Society has recognized Glenn for over 30 years as a volunteer, as well as presenting him with an Award of Merit.
