

Anniversary Pins

At the beginning of each new year the chapter chair will be sent a list of members that are to receive an anniversary pin for their membership. The pins are given in five year increments based on the members join date in the national database. The pins are meant to be a symbol of gratitude for their years of membership with the society and something they can wear proudly to show their involvement.

The distribution process for the anniversary pins is up to the chapter. Typically, pins are either given at every meeting to the members whose anniversaries have passed, or they are all given out at a special awards and recognition meeting. The process is up to you and any method that makes the members feel appreciated for their membership is a good one. For members that may not live close to the typical chapter meeting locations they can also be mailed with a letter.
