

Since 2006, Alex has been working full-time in the Occupational Safety field. He has worked in the construction, manufacturing and sales & service industries. He would consider himself to be a “generalist” in the safety field, learning as much as possible about all related facets, and seeking out specialists where needed in his professional roles.

He is a certified NCSO Auditor through CSAM, and has his Occupational Safety Certificate from the University of New Brunswick.

He joined the CSSE in 2009, and has served as Secretary, Chair, Past Chair, Marketing and Technical Support for the Manitoba Chapter. He has also been a member of the National Communications Committee with input on the monthly newsletter and website development. He has also presented at the Manitoba CSSE Conferences and monthly meetings on a variety of topics.

Alex is a certified First Aid Instructor Trainer, and Instructor for Psychological First Aid with the Canadian Red Cross. He provides training, auditing and consulting services through his own company I M Safe.

Through the Red River Community College Occupational Safety Program, he has been a mentor for eight graduates, many of whom have become successful safety professionals in their own careers. He continues to mentor and provide insight to those seeking opportunities in the field.

In his previous jobs, he has worked in marketing, transportation, real estate, technical and food services. He also serves as a referee through Volleyball Canada for both indoor and beach, and holds a National certification as a beach referee. During the holiday season, he provides his services as a professional Santa Claus, bringing joy to hundreds of kids and families each year.

Alex lives in Winnipeg with his family and supports his daughter in her venture with the Air Cadets by serving as the Chair of the SSC of the parent’s committee.
